

Kiosk Self Service

Designed as a transactional kiosk, **this** kiosk handles frequent use in the public domain. All interactive peripherals are catered for, from electronic payments, cash payments, receipt printing and scanning and built with a robust touch display making for a seamless user experience. The smart design allows for many colour and texture options in the finish to fit in with any décor as a stylish and functional public facing device.

Toughened glass, multi-touch technology

With a 19" projected capacitive touch display offering accurate and responsive touch and a great user experience, this kiosk is both tough and user friendly.

Featuring a powder coated frame, with the option of corporate branding, and various other finishes for maximum impact, this versatile kiosk is suited to multiple environments.
